Section 4

CSR Focus Areas

At ZEEL, we have chosen specific focus areas in which to deploy our CSR contributions with a view to having a longer-term focus on certain areas

A. Women Empowerment

Women empowerment has always been at the core of our CSR Focus Areas. Their aspirations, needs and achievements are paramount for us. We have a track record of championing the cause of women & girls through progressive, women-centric storytelling and we want to impact their lives positively in every way possible; both through our entertainment platforms and through meaningful social outreach. There exists a direct correlation between educating women and girls and successfully empowering them. The requirement of intervention for women empowerment through the activities listed below are needed more in rural India, hence that is intended to be the focus in terms of geography.

Activities covered

- **Health:** Interventions focused on improving women's/girls' health; reducing female infanticide and improving maternal & neo-natal health outcomes
- **Education:** Educating girls; scholarships for women enrolled in programmes with M&E Institutions - MICA/Jamia/ACJ/NSD/NID/ EMRC etc.
- **Skilling:** Vocational skilling of women and girls
- **Enhancing livelihoods:** Enhancing livelihoods including through enabling women entrepreneurship.

B. Protection and Preservation of Our Arts, Crafts, Culture, National Heritage & Monuments

We cherish our role in propagating and celebrating Indian culture. As content creators, we have relied on stories that bring out the richness of our civilisation and the beauty of our customs for establishing a strong connection with our viewers. Our appreciation for our rich culture motivates us to give back by supporting initiatives that serve to preserve and protect our arts, crafts & culture. With very few organisations making sustained efforts in this space, ZEEL's focused interventions help to bring strong credibility through real impact, benefiting the creative arts ecosystem at large.

C. Disaster Relief & Recovery

While disasters do not discriminate, their impact on the most vulnerable sections of the society is cataclysmic. It is important that we stand up and be counted as responsible members of society during such disasters. ZEEL intends to provide assistance in relief and rehabilitation efforts in the event of occurrence of natural or any other disasters.

Activities covered

- **Support to Government:** Grants to Central and State relief funds
- **Partnerships:** Associating with relevant NGOs/para-state institutions engaged in disaster relief and recovery.

D. Integrated Rural Development Projects

More than 70% of Indians live in rural areas, which also face the highest levels of poverty. Majority of this population directly or indirectly depends on agricultural income. Hence, support to farmers is imperative for all-round development of the Country.

Some of the key issues that have resulted in/arising out of the decrease of farmers' income are:

- One of the biggest issues that an Indian farmer faces is that of very small land holdings due to the division of land that occurs from expanding families & generations.
- Traditional farming and lack of technology availability has resulted in low productivity.
- Excessive use of fertilizers, chemicals, pesticides and insecticides has failed to boost yields, thereby affecting the soil quality and resulting in loss of income for farmers.
- The nutritional value of food has been going down steadily, thereby affecting the immunity levels of people at large. The Indian middle class spends 20% of their earnings on healthcare.
- Integrated Rural Development Projects are intended to be a one of the areas of focus for ZEEL, with intent to improved lives and livelihoods in rural India and also stem migration to urban areas.

E. Initiatives to improve public health through food quality

There is strong need to create a healthy India that consumes healthy, nutrition-rich and chemical-free food. ZEEL intends to work with reputed NGOs across the country to encourage pesticide-free and chemical-free food development for the benefits of Indians and India at large.

4.1 Locations

The Company intends to give preference to the local area/s around where it operates. The CSR committee will decide on the locations for CSR activities to be carried out.
